

BUSINESS POLICY

- For us at ROCA, quality is a holistic concept that includes everyone in our organization and everything we do.
- The business is managed with simple and clear quality and environmental goals through a regular measurement of these.
- We comply with current environmental laws and work actively to reduce the burden on the environment in terms of our overall operations by applying ISO 14001.
- Our most significant environmental impact is our freights
- We conduct our quality and environmental work with an effort to constantly improve ourselves.
